

THE DaCCA BULLETIN

A MONTHLY BRIEF ON THE DACCA PARTNERS' ACTIVITIES

OCTOBER 2018 ISSUE

Programmatic Communication Platform commences work on climate change

The Programmatic Communication Platform (PCP) which was established in January 2018 by the Devolution and Climate Change Adaptation Programme (DaCCA) development partner- SustainableEnergy began its activities in the month of October. The platform seeks to contribute towards Climate change adaptation and mitigation interventions integration into on-going development and governance processes and addressed locally through public and private investments benefitting vulnerable groups in Mozambique, Tanzania, Uganda and Kenya.

The 8 members of the platform began documentation of evidence of climatic change in the month of October in various sites in the participating countries. The outcome of these site visits being, short films showcasing the effects of climate change and community coping mechanisms in climate change vulnerable communities. Platform members will also write articles and take photos that will support the evidence of climatic change.

Besides this, members are triggering climate action via direct tweeting to relevant decision makers in their countries via the shared twitter account- Uniting for Climate. Tweets are pegged to the hashtag #TakeClimateAction

The platform will be advocating for better climate solutions for vulnerable communities through to 2019.

THE PARTNERS

SustainableEnergy embarks on annual mission to Kenya

Between the 4th and the 11th of October, 2018, the Devolution and Climate Change Adaptation in Western Kenya (DaCCA) Programme partners hosted their Northern Partner- SustainableEnergy. This visit was organized for the main purpose of meeting with the DaCCA programme partners to discuss the progress of the programme in Kisumu and Homabay Counties.

DaCCA partners got the opportunity to share their main results during the first 6 months of 2018, their reflections on the project's outcome and their work plan and expected results in 2018. The partners also discussed the programme's new phase that is to begin in 2020 and which would incorporate an additional county.

In addition, the different working groups operating under the DaCCA programme also shared the progress of their activities with the SustainableEnergy team.
